OBJECTIVE

Seeking a challenging position in the field of Computer Applications to utilize my skills in software development and contribute to the success of a dynamic organization.

SKILLS

- Html
- Css
- Javascript
- #C
- #C++
- Java
- Dbms
- Php

EDUCATION

👉 **Maharishi Arvind institute of science and management**
BCA

2024

PROJECTS

👉 **Bharat-Intern**

1) Temperature convertor

Developed a Temperature Converter web application that allows users to convert temperatures between Celsius, Fahrenheit, and Kelvin. The user-friendly interface facilitates quick and accurate conversions, enhancing the overall user experience.

Technologies Used:

Frontend: HTML5, CSS3, JavaScript

Version Control: Git

2.) Netflix Landing Page

Created a dynamic and responsive landing page inspired by the Netflix interface. The landing page features an engaging design with movie thumbnails, a navigation bar, and interactive elements that mimic the Netflix browsing experience.

Technologies Used:

Frontend: HTML5, CSS3, JavaScript

3.) Portfolio

Created a dynamic portfolio

Technologies Used:

Frontend: HTML5, CSS3, JavaScript

INTERNSHIP/WORK EXPERIENCE

Bharat-Intern
